European Union

# Olympic Committee of BiH

(32 women in a key positions)

Ratio of team and individual sports

Ratio of team and individual sports	
Team sports	7
Individual sports	15

# Developing E-platform

- E-Platform will be designed to connect women in sport from different parts of the Western Balkan Region and help them grow their skills and positions in sport organizations.
- The platform will offer a range of tools and resources to its users, including networking opportunities, business coaching, mentorship programs, access to funding, and educational materials.
- The platform's main goal is to empower women in sport organizations by providing them with the necessary support and resources to start and grow successful businesses.
- Throughout NOCWB, women's will connect with other women's in leading positions from whole Europe, share their experiences, learn from each other, and access a wide range of resources that can help them overcome the challenges they face.
- The platform also aims to bridge the gender gap in management by promoting diversity and inclusion in the sport world.
- By creating a community of women in sport and providing them with the resources they need to succeed, NOCWB will create a more equitable and prosperous future for all.

# THANK YOU!
